BEAUTIFY . . .
ECONOMIZE . . .
with FLEXIBLE . . .

Bolta-Top

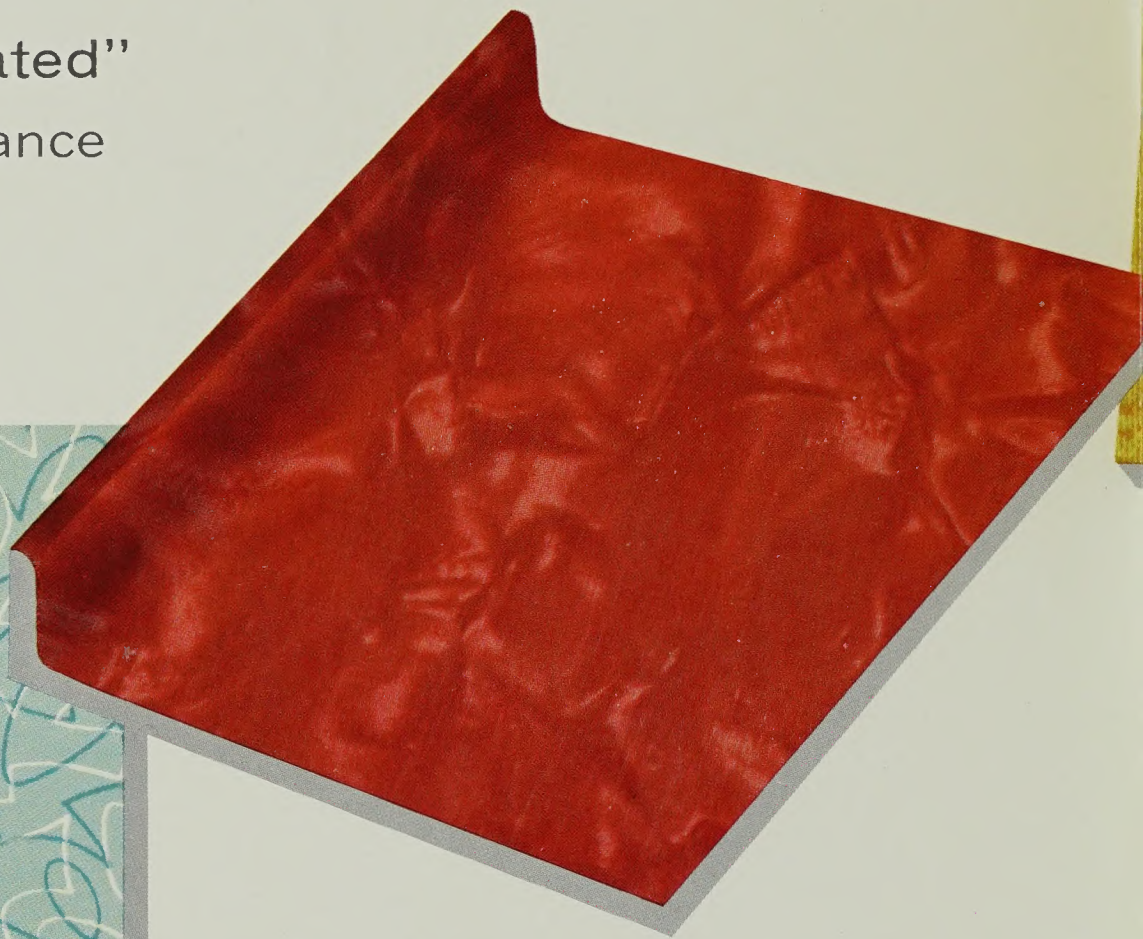

"it's **MYLAR*** coated"
for stain resistance

Script Pattern

A truly modern design featured on vivid contrasting backgrounds.

Blends well with any decor. Especially popular for kitchens and bathrooms.

Pearl Pattern

A tradition in beauty. Lustrous finish retains sparkle after years of use. Always looks fresh and clean.

NEW DO-IT-YOURSELF BEAUTY

Unique Bolta-Top is a flexible vinyl all-surface material that brings lasting beauty to the surfaces of your home. Anyone can cover tables, desks, walls and shelves with easy to handle, easy to apply, quality Bolta-Top.

You save money with low-cost Bolta-Top because you apply it yourself. You don't need special tools. Cut Bolta-Top readily with a scissors. Bolta-Top comes in the exact yardage you need . . . there's no waste. May be applied with or without moulding.

Bolta-Top is sanitary. It can be creased or folded to fit over edges and around corners, eliminating dirt catching cracks and crevices. Cleans quickly with a damp cloth.

Super strength "MYLAR", a durable, transparent, protective film, shields the colorful, satin vinyl surface. Bolta-Top won't crack, flake, or peel . . . withstands heat up to 270° F. Choose your Bolta-Top today from a delightful array of colors and patterns.

Linen Pattern

A soft woven pattern with all the subtle beauty of delicate linen. Wide selection of smart decorator colors.

Marble Pattern

The look of finest marble in richly styled economy vinyl. Outstanding in any decorating theme. Choice of elegant colors.

Woodgrain Pattern

Authentic grains captured in natural hues. Handsome reproductions in quality vinyl. Ideal for dens and recreation rooms.

ARCHITECT'S SPECIFICATIONS FOR

Bolta-Top

Countertop surfaces and areas where designated on drawings and on schedule of interior finishes shall be covered with Bolta-Top surfacing material manufactured by The General Tire & Rubber Company, Building Materials Division, Akron, Ohio. This material shall consist of .005" DuPont Mylar and .016-.017 virgin vinyl plastic sheeting laminated by pressure to a rubber impregnated fibre backing .0165"-.0175" in thickness.

Pattern and color shall be shown. Example: Buff Linen.

Surfaces to receive Bolta-Top shall be dry, smooth, and free from blemishes to the satisfaction of the applicator.

The installation of Bolta-Top shall be made by an approved Bolta-Top dealer-applicator in strict accordance with the manufacturer's printed instructions, and using only such adhesives, size, and other accessories as have been approved by The General Tire & Rubber Company, Building Materials Division.

The applicator shall cover all exposed edges of Bolta-Top with metal, plastic or other trim and all joinings shall be made absolutely watertight.

The applicator shall remove all old countertop materials and adhesives used for installation.

The finished installation shall (a) be free of air bubbles, blemishes or cracks (b) have a minimum of joints and seams (c) be clean and free of excess adhesive at seams and on surface.

Note to the specification writer: This specification covers the use of Bolta-Top on the following surfaces: New and old surfaces, $\frac{3}{4}$ " Plywood Grade AC (exterior), $\frac{1}{4}$ " tempered hardboard firmly cemented and nailed to existing surface.

For specifications for use on: metal, marble, and wall surfaces, contact The General Tire & Rubber Company, Building Materials Division, Akron, Ohio.

All Bolta-Top specifications should be included in the floor-covering section of the general specifications.

For Bolta-Top application on wall areas, see Bolta-Wall architect's specifications.
